**NOTICE IN TERMS OF THE REGULATIONS REGARDING TRANSITIONAL PROCEDURES  
FOR TELECOMMUNICATIONS AND BROADCASTING SERVICE LICENCES AND  
SPECTRUM USE LICENCES**

The Communications Regulatory Authority of Namibia, in terms of regulation 9 of the “Regulations Regarding Transitional Procedures for Telecommunications and Broadcasting Service Licences and Spectrum Use Licences”, in Government Gazette No. 4737, Notice No. 171, dated 17 June 2011, herewith gives notice that broadcasting service licensees referred to in the table below, who hold licences to use spectrum, submitted information forms to the Authority for license review purposes. The list also includes licensees that did not submit information forms.

In terms of Regulation 9(2) of the “Regulations Regarding Transitional Procedures for Telecommunications and Broadcasting Service Licences and Spectrum Use Licences”, any person who has an existing or deemed spectrum use license that does not appear on the list must submit their license and/or information form required by Regulation 4 in writing to the Authority within fourteen (14) days from the date of publication of this notice in the *Gazette*, after which the Authority will publish a second notice in the *Gazette* setting out a revised list.

In addition, any person that appears on the list and has not provided all of the information required by Regulation 4, must submit the additional information required by Regulation 4 in writing to the

Authority within fourteen (14) days from the date of publication of this notice in the *Gazette*. The licensees and the public are requested to verify the accuracy of the information contained herein as this table of frequencies listed will have an impact on the national band plan and may result in possible frequency re-assignments, revocations of spectrum and re-farming, at the sole costs of the affected party.

**PLEASE NOTE:**

The list below only relates to spectrum for broadcasting service licensees and does not relate to spectrum licensees for telecommunications services or to spectrum use licensees authorised to use spectrum for amateur services, aeronautical services, maritime services, alarm system services, emergency response system services, private ECNS/ECS, resale of ECNS/ECS, non-profit ECNS/ECS, navigation and radar system service or broadcasting back-haul system service.

The Authority will publish in the *Gazette*, separate lists for telecommunications service licences and spectrum use licences for licensees authorised to use spectrum for amateur services, aeronautical services, maritime services, alarm system services, emergency response system services, private ECNS/ECS, resale of ECNS/ECS, non-profit ECNS/ECS, navigation and radar system service or broadcasting back-haul system service.

**WARNINGS:**

In terms of section (9)(10)(a) of the “Regulations Regarding Transitional Procedures for Telecommunications and Broadcasting Service Licences and Spectrum Use Licences”, no new licence will be issued to any licensee that does not provide all of the information required in the time permitted and who does not complete the forms in full and has information lacking.
